Tree Journal

- Print both pages back to back (side binding) and fold in the middle to create a booklet.
- Make detailed observational drawings of the different tree parts.
 - Use a pencil and colored pencils only.
 - Use a ruler to measure and record dimensions.
 - Record texture, sound, size comparisons, or other important impressions.
- When available, collect samples from the ground, or take pictures, to add to the booklet.
- Use the “Notes:” section to explain your observations.
 - Share your thinking.
 - Use descriptive writing,
 - Create an inspired poem
 - Document facts using scientific narrative.
